

Liberty keeps up its credit rating

LIBERTY Medical Scheme's very strong rating of AA- has been reaffirmed by Global Credit Rating in recognition of its claims-paying ability.

Andrew Edwards, executive principal officer of the scheme, said: "This rating is an affirmation of the scheme's commitment to members; it also sets us apart from many other industry players.

"Despite an increase in claims, the scheme maintained its above-industry claims payment level for the 2010 financial year," he said.

"Plans are under way to reach more markets to ensure that our product offering reaches all income groups in South Africa." – I-Net Bridge
